

Gravity

Relax into complete weightlessness

Design: Peter Opsvik
Concept: Hans Chr. Mengshoel

Concept

Tilt forward and kneel, or recline completely for a near zero gravity

Rock gently back and forth when fully reclined

Your neck and back are gently cradled and supported

Your abdomen and back muscles work to keep a natural posture when upright

Category

From effortless comfort to unmatched variability, Varier recline chairs offer perfect support and relaxation. Turn, tilt or fully recline. With just the slightest movement your body glides easily from one sitting angle to another. Lock the chair into position, or rock gently into relaxation. No one sits completely still, even when in a relaxed state. Recline chairs from Varier assist steady, gentle movement and re-energises you until you are ready to stand up

Healthy sitting

- Yields to the rhythm of your breathing, ensuring deep relaxation (like a cradle)
- Feet and head are higher than heart for peace of mind (blood flows back to heart more easily)
- Open design enables variable seating positions
- Offers back and adjustable neck support
- Upright position tilts pelvis forward, allows for neutral spine, and activates abdominal and back muscles
- Offers benefits of balans® concept in active positions
